Class 1 Mathematics Solved Notes English (PCTB)

Punjab Curriculum and Textbook Board (PCTB)

Unit 1: Whole Numbers

Counting 1 to 9 (book page 2)

Question: Count the objects on the counting page and read the numbers 1 to 6.

Answer: 1 teddy bear, 2 aeroplanes, 3 blocks, 4 cars, 5 rattles and 6 chicks. Counting means saying one number for each object, in order, without missing any object.

Exercise 7 (book page 39): Ascending order

Question: Write 21, 24, 23, 25, 22 and 45, 47, 49, 46, 48 in ascending order.

Answer: 21, 22, 23, 24, 25 and 45, 46, 47, 48, 49. Ascending order means from the smallest number to the greatest number.

Exercise 8 (book page 39): Descending order

Question: Write 63, 65, 62, 66, 64 and 85, 83, 87, 86, 84 in descending order.

Answer: 66, 65, 64, 63, 62 and 87, 86, 85, 84, 83. Descending order means from the greatest number to the smallest number.

Exercise 9 (book page 39): More than / less than

Question: Count the objects and complete: 24 is ___ than 20. 40 is ___ than 49.

Answer: 24 is more than 20, because 24 is greater than 20. 40 is less than 49, because 40 is smaller than 49.

Exercise 10 (book page 39): Who am I?

Question: I am the smallest 2-digit number. I have 0 ones and 1 ten. Tell me, who am I?

Answer: I am 10. I have 1 ten and 0 ones, so I am the smallest 2-digit number.

Question: I am the greatest 2-digit number. I have 9 ones and 9 tens. 100 comes after me. Tell me, who am I?

Answer: I am 99. I have 9 tens and 9 ones, and 100 comes after me, so I am the greatest 2-digit number.

Tens and Ones

Question: Write 45 and 89 in tens and ones.

Answer: 45 = 4 tens and 5 ones. 89 = 8 tens and 9 ones. The first digit of a 2-digit number shows tens and the second digit shows ones.

Unit 2: Number Operations — Subtraction

Exercise (book page 70): Subtract in Tens and Ones

Question: Work out 89 - 60.

Step 1: Write 89 as 8 tens and 9 ones.

Step 2: Subtract the tens: 8 tens - 6 tens = 2 tens.

Step 3: Subtract the ones: 9 ones - 0 ones = 9 ones.

Step 4: 2 tens and 9 ones make 29.

Answer: 89 - 60 = 29.

Question: Work out 93 - 81.

Step 1: Write 93 as 9 tens and 3 ones.

Step 2: Subtract the tens: 9 tens - 8 tens = 1 ten.

Step 3: Subtract the ones: 3 ones - 1 one = 2 ones.

Step 4: 1 ten and 2 ones make 12.

Answer: 93 - 81 = 12.

Question: Work out 70 - 50.

Step 1: Write 70 as 7 tens and 0 ones.

Step 2: Subtract the tens: 7 tens - 5 tens = 2 tens.

Step 3: Subtract the ones: 0 ones - 0 ones = 0 ones.

Step 4: 2 tens and 0 ones make 20.

Answer: 70 - 50 = 20.

Question: Work out 64 - 52.

Step 1: Write 64 as 6 tens and 4 ones.

Step 2: Subtract the tens: 6 tens - 5 tens = 1 ten.

Step 3: Subtract the ones: 4 ones - 2 ones = 2 ones.

Step 4: 1 ten and 2 ones make 12.

Answer: 64 - 52 = 12.

Exercise 9 (book page 70): Word problem

Question: Iram saw 15 parrots and 3 pigeons in the zoo. How many birds did she see altogether?

Step 1: Number of parrots = 15.

Step 2: Number of pigeons = 3.

Step 3: Altogether means add: 15 + 3.

Step 4: 15 + 3 = 18.

Answer: Iram saw 18 birds altogether.

Exercise 10 (book page 70): Word problem

Question: Sara has two books. One book has 56 pages and the other has 42 pages. If Sara reads both books, how many pages will she read altogether?

Step 1: Pages of one book = 56.

Step 2: Pages of the other book = 42.

Step 3: Altogether means add: 56 + 42.

Step 4: 6 ones + 2 ones = 8 ones; 5 tens + 4 tens = 9 tens.

Step 5: 9 tens and 8 ones make 98.

Answer: Sara read 98 pages altogether.

Exercise 11 (book page 70): Word problem

Question: There are 45 students in Zara's class. If 23 of them are boys, how many girls are there?

Step 1: Total students = 45.

Step 2: Number of boys = 23.

Step 3: Girls = total - boys: 45 - 23.

Step 4: 5 ones - 3 ones = 2 ones; 4 tens - 2 tens = 2 tens.

Step 5: 2 tens and 2 ones make 22.

Answer: There are 22 girls in the class.

Unit 3: Measurement — Length and Mass

In this unit we compare objects by length (long and short) and by mass (heavy and light).

Exercise 6 (book page 80): Light and lightest

Question: Compare the leaf, the tennis ball and the jug of water. Which is the lightest and which is the heaviest?

Answer: The leaf is the lightest, the tennis ball is in the middle, and the jug of water is the heaviest. Light things are easy to lift and heavy things are hard to lift.

Exercise 7 (book page 80): Heaviest object

Question: Tick the heaviest object: the cupboard, the chair or the small cabinet.

Answer: The big cupboard (wardrobe) is the heaviest object. It is bigger and heavier than the chair and the small cabinet.

Exercise 8 (book page 80): Lightest and heaviest

Question: Colour the lightest object blue and the heaviest object yellow: school bag, book, clipboard.

Answer: Colour the clipboard blue because it is the lightest object. Colour the school bag yellow because it is the heaviest object. The book is in the middle.

Unit 4: Money

Exercise 3 (book page 93): Count and write the correct amount

Question: Count: one Rs 50 note and three Rs 10 notes.

Step 1: One Rs 50 note = Rs 50.

Step 2: Three Rs 10 notes = Rs 10 + Rs 10 + Rs 10 = Rs 30.

Step 3: Add them: Rs 50 + Rs 30 = Rs 80.

Answer: Rs 80.

Question: Count: one Rs 20 note, one Rs 5 coin and four Rs 2 coins.

Step 1: One Rs 20 note = Rs 20.

Step 2: One Rs 5 coin = Rs 5.

Step 3: Four Rs 2 coins = Rs 2 + Rs 2 + Rs 2 + Rs 2 = Rs 8.

Step 4: Add them: Rs 20 + Rs 5 + Rs 8 = Rs 33.

Answer: Rs 33.

Question: Count: one Rs 50 note, one Rs 20 note, one Rs 10 note and one Rs 5 coin.

Step 1: Rs 50 + Rs 20 = Rs 70.

Step 2: Rs 70 + Rs 10 = Rs 80.

Step 3: Rs 80 + Rs 5 = Rs 85.

Answer: Rs 85.

Question: Count: two Rs 10 coins, one Rs 5 coin and four Rs 2 coins.

Step 1: Two Rs 10 coins = Rs 10 + Rs 10 = Rs 20.

Step 2: One Rs 5 coin = Rs 5.

Step 3: Four Rs 2 coins = Rs 8.

Step 4: Add them: Rs 20 + Rs 5 + Rs 8 = Rs 33.

Answer: Rs 33.

Exercise 4 (book page 93): Shopping word problems

Question: Harris bought a train for Rs 63 and a duck for Rs 25 from a toy store. How much money did he spend?

Step 1: Cost of the train = Rs 63.

Step 2: Cost of the duck = Rs 25.

Step 3: Total = Rs 63 + Rs 25.

Step 4: 3 ones + 5 ones = 8 ones; 6 tens + 2 tens = 8 tens.

Step 5: 8 tens and 8 ones make Rs 88.

Answer: Harris spent Rs 88.

Question: Ayesha wants to buy a teddy bear for Rs 70. She has Rs 50. How much more money does she need?

Solution:

Step 1: Cost of the teddy bear = Rs 70.

Step 2: Ayesha has Rs 50.

Step 3: More money needed = Rs 70 - Rs 50.

Step 4: 7 tens - 5 tens = 2 tens, so the answer is Rs 20.

Answer: Ayesha needs Rs 20 more.

Unit 5: Time

Months of the year

Question: Which is the first solar month?

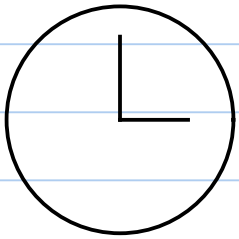

February

✓ January

Question: In which month do we celebrate Independence Day?

March

✓ August

A clock showing 3 o'clock: the short hand points to 3 and the long hand points to 12.

Exercise 4 (book page 106): Match each Islamic month with the correct ordinal number

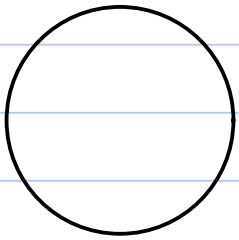

Question: Match the Islamic months with their numbers: Safar, Ramazan, Rajab, Muharram, Jamadi-ul-Awwal, Zil Hajj, Shawwal, Jamadi-ul-Sani, Ziq'ad, Rabi-ul-Sani, Shaaban, Rabi-ul-Awwal.

Answer: Muharram — 1st, Safar — 2nd, Rabi-ul-Awwal — 3rd, Rabi-ul-Sani — 4th, Jamadi-ul-Awwal — 5th, Jamadi-ul-Sani — 6th,

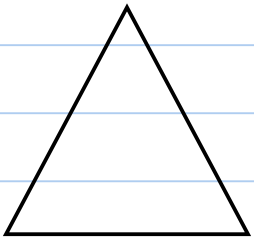

Rajab — 7th, Shaaban — 8th, Ramazan — 9th, Shawwal — 10th, Ziq'ad — 11th, Zil Hajj — 12th.

Unit 6: Geometry — Shapes and Position

Shapes

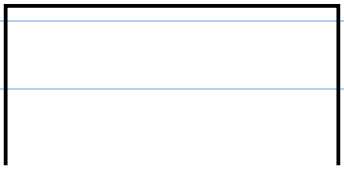

A circle: it is round and has no corners.

A triangle: it has 3 sides and 3 corners.

A square: it has 4 equal sides and 4 corners.

A rectangle: it has 4 sides; opposite sides are equal.

Exercise 7 (book page 130): Position — over

Question: Encircle the object that is over the pole: the bird or the cat?

Answer: The bird is over the pole. The bird is flying above the lamp pole, while the cat sits beside the pole on the ground.

Exercise 8 (book page 130): Position — near and far

Question: Colour the animal which is near the tree: the goat or the fox?

Answer: The goat is near the tree. The goat stands beside the tree, while the fox stands far away from the tree.

Exercise 9 (book page 130): Queue positions

Question: Some children are queuing up to get tickets in the order Ahmer, Umar, Amna, Fahad. Who is standing just after Amna? Who is standing just before Umar? Who is standing just after Ahmer?

Answer: Just after Amna stands Fahad. Just before Umar stands Ahmer. Just after Ahmer stands Umar. The queue order from the ticket window is: Ahmer, Umar, Amna, Fahad.
