Question: Oral Communication Exercise 1: Sort the mixed-up points among the three friends (Amina, Hina, Mariam) in the discussion about home medicines.

Answer: Model answer (the book gives no fixed key; any consistent assignment showing agreement and disagreement is acceptable): Amina: (a) the medicines my parents and grandparents give me are better than those given by doctors; (c) most illnesses go away after a while; (e) I don't agree — the medicines doctors give lead to other problems. Hina: (f) Yes, that makes sense; (d) This doesn't make sense to me, but I'll go with your idea. Mariam: (h) Many diseases, if not treated properly and on time, can lead to bigger problems and more expenses; (g) I think we should see a doctor if we have any health problem for more than two or three days; (b) Health is the most important thing in life, so we should do all we can to protect it.

Question: Oral Communication Exercise 2: Practise the completed dialogue in the three given role sequences.

Answer: Model answer: Perform the completed dialogue from Exercise 1 three times, rotating the roles: Sequence 1 — Student 1 as Amina, Student 2 as Hina, Student 3 as Mariam; Sequence 2 — Student 1 as Mariam, Student 2 as Amina, Student 3 as Hina; Sequence 3 — Student 1 as Hina,

Student 2 as Mariam, Student 3 as Amina.

Question: Oral Communication Exercise 3 (Topic 1): Prepare a short dialogue showing agreement and disagreement: All students should study up to the Masters' level.

Answer: Model answer: Student 1: I think all students should study up to the Masters' level, because higher education opens better jobs. Student 2: I agree with you. A higher degree builds knowledge and confidence. Student 3: I don't agree. Many students need skills and work early, and a degree is not the only path to success.

Question: Oral Communication Exercise 3 (Topic 2): Prepare a short dialogue showing agreement and disagreement: All of us should grow our own vegetables.

Answer: Model answer: Student 1: I believe we should all grow our own vegetables; fresh vegetables are healthy and cheap. Student 2: Yes, that makes sense. Home-grown vegetables are free from harmful sprays. Student 3: I can't agree. Many people have no land or time for gardening.

Question: Oral Communication Exercise 3 (Topic 3): Prepare a short dialogue showing agreement and disagreement: All of us should stop eating meat.

Answer: Model answer: Student 1: I think we should all stop eating meat; it is kinder to animals and good for health. Student 2: I agree. A diet of vegetables and pulses can keep us healthy. Student 3: I don't think so. Meat gives protein and strength, and many people depend on it.

Question: Fun: Complete the ghost story from Language Practice Exercise 4, using the guiding questions (did the boys go in, who was scared, what happened, what did they tell everyone).

Answer: Model answer: The boys decided to go in, but not all agreed — Javed was afraid. In the end, all five went in together. Inside it was dark and silent, and a sudden sound made them all jump. They stayed only a few minutes. Javed left first, and Rashid was the least scared while Sajid was the most scared. When they came out, they found no ghost at all. They told everyone that the house was only empty and dark, and there were no ghosts — fear had made the story big.

Question: Exercise 5 (1): Why was King Bruce so sad?

Answer: He was sad because he had tried and tried to do a great deed to make his people glad, but he could not succeed.

Question: Exercise 5 (2): Before he saw the spider, what did he decide to do?

Answer: He decided to give it all up.

Question: Exercise 5 (3): Why did King Bruce think that the spider would not be able to reach its home?

Answer: Because it was a long way up to the ceiling dome, it hung by a

very fine thread, and he could not work out how it would get to its cobweb home.

Question: Exercise 5 (4): Did the spider climb at the same speed all the time or at a different speed?

Answer: At a different speed — sometimes fast, sometimes slow; at the end it moved steadily, inch by inch.

Question: Exercise 5 (5): How did the spider finally reach its home?

Answer: Steadily, steadily, inch by inch, higher and higher it climbed, and a bold little run at the very last pinch put it into its home.

Question: Exercise 5 (6): Why did the king decide to try again?

Answer: Because the spider defied despair and conquered by trying again and again. The king cried, "All honour to those who try," and felt that he too could succeed.

Question: Exercise 6: Write a summary of the poem "King Bruce and the Spider".

Answer: Model answer: The poem "King Bruce and the Spider" is written by Eliza Cook. It tells us how a sad king learnt never to give up. King Bruce of Scotland was unhappy because he had tried again and again to do a great deed for his people but had failed, and he decided to give it all up. Just then a spider dropped down on its silken thread. The king watched it try to climb to its cobweb home high up at the ceiling. Again and again it slipped and fell, and nine brave attempts were counted. The king thought it would give up, but the spider kept trying without complaint. At last it climbed steadily, inch by inch, and reached its home. The king cried, "All honour to those who try," and braced his mind. He tried once more, and that time he did not fail. The moral is: try, try again — those who keep

trying succeed. [note: the book's Exercise 6 refers to "Exercise 5" for the one-line summaries, but the one-line summaries are in Exercise 4.]

Question: Exercise 7: In groups of five, prepare a brief role-play on any story with a moral.

Answer: Model answer (The Hare and the Tortoise): Narrator: Once a hare laughed at a slow tortoise and challenged him to a race. Hare: You walk so slowly! I will beat you easily. Tortoise: Let us run the race and see. Narrator: The race began. The hare ran far ahead, then slept under a tree. The tortoise kept walking slowly and steadily. Tortoise: Slow and steady wins the race. Narrator: The tortoise reached the finish line first. Moral: Slow and steady wins the race; never be proud and careless.

Question: Language Practice Exercise 3: Fill the blanks in the story of Kakenya Ntaiya from Kenya, using Past Simple or Past Continuous forms of the words in brackets.

Answer: When Kakenya Ntaiya, from Kenya, was fourteen, she requested her father to let her finish high school. She dreamt high as she was making good progress and achieved good grades. Her teachers knew that she was very intelligent and they encouraged her to go for higher education. She promised her father that he would be proud of her one day, if he allowed her to continue her education. Very few Maasai girls, the tribe to which she belonged, ever finished high school, but her father accepted her request. Ntaiya kept her promise to her father. She began to work even harder, and soon she won a scholarship to go to the USA. The

village where she lived was very small. However, the villagers were so proud of her that they all came to see her off when she left. Ntaiya was crying as she was leaving. It was a touching scene. Everyone waved their hands and Ntaiya shouted that she would come back to serve the people in the village. When she graduated, she worked for a while at the UN and then got a doctorate degree. Then she returned home and wanted to set up a primary school in her old village. At first, some villagers refused to give Ntaiya the land for the school, but many parents now realise how important a good education could be for their daughters. Till last year, the school provided education to more than 150 girls. The girls at the school praise Ntaiya. They work hard to become teachers, doctors, or lawyers. [note: the last three verbs are present simple because of "now" and general present meaning.]

Question: Writing Exercise 1: Read the poem "Little Things" by Julia Carney and write a summary following the given guidelines.

Answer: Model answer: The poem "Little Things" is a simple children's song by Julia Carney. It explains that even little things are important. In the first stanza, the poet says that little drops of water and little grains of sand make the mighty ocean and the pleasant land. In the second stanza, she says that little deeds of kindness and little words of love make our world an Eden like the heaven above. In all, the poem teaches us that small things, done with kindness and love, build great results.

Question: Writing Exercise 2: Write a summary of the poem "The Man Who Wins" (Anonymous).

Answer: Model answer: The poem "The Man Who Wins" is by an anonymous poet. It explains that success begins in the mind. In the first stanza, the poet says if you think you are beaten, you are; if you think you cannot win, you almost certainly will not. In the second stanza, he says success begins with a fellow's will — it is all in the state of mind. In the third stanza, he says you must think high to rise and be sure of yourself before you can win a prize. In the last stanza, he says life's battles do not always go to the stronger or faster man; sooner or later the man who wins is the man who thinks he can. In all, the poem teaches that self-belief and a positive mind bring success.

Question: Exercise 6 (Business): Write the positive aspects, negative aspects, and what needs to be done to reduce the negative impact of social media for business.

Answer: Positive Aspects: Social media has become the fastest growing platform for online businesses; a business can be started with the click of a button or the touch of a finger; sellers can post products and invite buyers from every corner of the world, and interact with customers and respond to their queries, comments and needs. Negative Aspects: One may get cheated by fake virtual companies and organisations; people may suffer financial loss by paying for goods of poor quality and services that never materialise; those seeking jobs may face physical harm by going for fake interviews. Reducing Negative Impact: Be discreet when selecting online products or responding to online offers of jobs and other opportunities; share only authentic and verified news and content.

Question: Exercise 6 (Students): Write the positive aspects, negative

aspects, and what needs to be done to reduce the negative impact of social media for students.

Answer: Positive Aspects: Students can easily interact with their counterparts, educators and researchers in any part of the world, exchange views on matters of mutual interest, and gain from their knowledge and wisdom. Negative Aspects: Injudicious use often results in persistent incomplete school assignments, tardy work, and poor academic performance; when pending work piles up, students resort to cut-and-paste from online websites, which harms their learning; those without access to such services remain behind. Reducing Negative Impact: Fix a time limit for using social media and follow it strictly; create a balance between study time and physical activities.

Question: Exercise 6 (Communication with friends and family): Write the positive aspects, negative aspects, and what needs to be done to reduce the negative impact of social media for communication with friends and family.

Answer: Positive Aspects: Social media has provided ease of connectivity; it has made constant connection with distant relatives possible and helped establish contact with long-lost friends and relatives; its affordability and easy accessibility have strengthened the bond of love and care between family members, who can virtually participate in family events. Negative Aspects: Increased time on social media has limited face-to-face communication and compromised relationships; interactions with a large number of people are shallow and cannot replace everyday face-to-face communication; this lack of quality communication can weaken relationships. Reducing Negative Impact: Spare time for family and friends; do not indulge too much in self-portrayal; create a balance between online time and face-to-face time.

Question: Exercise 6 (Promotion of skills and talents): Write the positive aspects, negative aspects, and what needs to be done to reduce the negative impact of social media for promotion of skills and talents.

Answer: Positive Aspects: Social media has made the promotion of skills and talents very easy; skilled and talented people can display their talents and achieve great heights and recognition in their fields; they can advertise their skills so employers can hunt the right people for vacant positions, and employers can advertise their vacancies through social media groups. Negative Aspects: The same openness can be misused by fraudulent companies and fake offers; too much self-portrayal and posting selfies can lead to self-praise and self-absorption. Reducing Negative Impact: Be discreet when responding to online offers; share only authentic and verified news and content; do not indulge too much in self-portrayal.

Question: Exercise 7 (1): How has social media revolutionized the concept of communication?

Answer: It has made the world a global village: interactive websites and applications enable users to create and share information, videos, thoughts and ideas instantly, and community is no longer only the immediate community but includes the entire world.

Question: Exercise 7 (2): How is social media assisting students and professionals in their respective fields?

Answer: It has opened new vistas: students and professionals can easily interact with their counterparts in any part of the world and exchange views on matters of mutual interest; students can also interact with educators and researchers and gain from their knowledge and wisdom.

Question: Exercise 7 (3): How can a business be initiated on a virtual

platform?

Answer: With the click of a button, or rather with the touch of a finger: businesspersons can post their products, invite buyers from every nook and corner of the world, interact with customers on a case-by-case basis, and readily respond to their queries, comments and needs.

Question: Exercise 7 (4): How can employers hunt the right candidates for their job positions?

Answer: Talented people advertise their skills and capabilities through social media, making it easy for employers to hunt the right people for any vacant position; employers can also use their social media groups to advertise their vacant positions.

Question: Exercise 7 (5): Why can people easily have a constant connection with relatives in distant parts of the world?

Answer: Because of the affordability and easy accessibility of social media: it has made constant connection with distant relatives possible and helped establish contact with long-lost friends and relatives.

Question: Exercise 7 (6): How is social media affecting the relationships of people?

Answer: Increased time on social media has limited face-to-face communication and compromised relationships. Interactions with many people are shallow and cannot replace everyday face-to-face communication, and this lack of quality communication can weaken relationships.

Social Media on the Family" and "Benefits of the Social Media".

Answer: Model answer: (1) Effects on my family: Social media keeps us connected with relatives living abroad, and we can take part in family events virtually. But family members now spend more time on their phones and talk less face-to-face. (2) Benefits gained: I learn new things, stay in touch with friends and relatives, get news quickly, and get help with my studies.

Question: Oral Communication Exercise 1 (1): In groups of three, prepare a presentation on: Keeping our surroundings clean. Use the presentation skills framework.

Answer: Model answer: Good morning, everyone. My name is Ahmed, your class fellow. Today, I would like to say a few words about keeping our surroundings clean. I will probably take about five minutes. I have divided my topic into three parts. First, why cleanliness matters: a clean environment keeps us healthy and happy. Secondly, what we can do: throw rubbish in dustbins, clean our classrooms, and plant trees. Lastly, our duty: we must all work together to keep our school and streets clean. For example, our class cleans the school garden every Friday. In conclusion, cleanliness is everyone's duty. Thank you for your time.

Question: Oral Communication Exercise 1 (2): In groups of three, prepare a presentation on: Making Pakistan green.

Answer: Model answer: Good morning, everyone. I am Fatima, your class fellow. I am here to talk about making Pakistan green. This should last only a few minutes. My presentation is divided into three parts. First of all, why green Pakistan matters: trees give us clean air and rain, and they stop floods. Secondly, what we can do: plant trees in our schools, homes and streets, and look after them. Lastly, what to avoid: do not cut trees and do

not waste water. For example, our school planted one hundred trees last year. To sum up, a green Pakistan is a healthy Pakistan. Thank you.

Question: Oral Communication Exercise 1 (3): In groups of three, prepare a presentation on: Overcoming water shortage problems.

Answer: Model answer: Good morning, everyone. My name is Ali. Today, I would like to say a few words about overcoming water shortage problems. I hope to be finished in five minutes. First, the problem: our country faces a shortage of water because of wasting water, a growing population, and little rain. Secondly, the causes in daily life: leaking taps, washing cars with pipes, and watering lawns carelessly. Thirdly, the solutions: save water, repair leaks, store rainwater, and use water carefully. Therefore, every drop counts. In conclusion, if we all save water, we can overcome the shortage. Thank you for your time.

Question: Oral Communication Exercise 1 (4): In groups of three, prepare a presentation on: Following traffic rules.

Answer: Model answer: Good morning, everyone. I am Ayesha, your class fellow. I am going to give you an overview of following traffic rules. This should last only a few minutes. First of all, why traffic rules matter: they save lives and keep the roads safe. Secondly, the main rules: stop at the red light, wear a helmet, use the zebra crossing, and never use a mobile phone while driving. Lastly, our duty: we must follow the rules ourselves and ask others to follow them. In fact, most accidents happen because people break the rules. To conclude, safe roads begin with us. Thank you.

Question: Oral Communication Exercise 2: Work individually. Select a topic of your choice and prepare a presentation.

Answer: Model answer (Topic: Why We Should Plant Trees): Good morning,

everyone. My name is Ahmed. Today, I would like to say a few words about why we should plant trees. I will probably take about five minutes. I have divided my topic into three parts. First, the benefits of trees: trees give us clean air, shade, fruits, and rain. Secondly, the problem: people are cutting trees, and our air is becoming dirty. Lastly, what we can do: each of us should plant at least one tree and look after it. For example, our school plants trees every spring. In conclusion, planting trees is planting life. Thank you for your time.

Answer: Causes: expensive medicines and equipment; shortage of public hospitals. Effects: poor cannot afford treatment; people avoid going to doctors. Suggestions: more government hospitals; control prices of medicines.

Question: Writing Exercise 3 (3): Draw a cause-effect diagram for: Migration of people from rural to urban areas. Write causes, effects, and suggestions.

Answer: Causes: lack of jobs and facilities in villages; better education and

health care in cities. Effects: overcrowding in cities; villages lose workers. Suggestions: develop villages; provide jobs and facilities in rural areas.

Question: Writing Exercise 4 (1): Write a cause and effect essay (four to five paragraphs) on: Lavish spendings on weddings.

Answer: Model answer: In our society, weddings have become a show of wealth. Families spend huge amounts of money on decorations, food, clothes and halls. This lavish spending has many causes and effects. The main causes are showing off wealth and social pressure. Families want to impress their relatives and neighbours, and they compete with one another. As a result, they spend far more than they can afford. The effects are harmful. Many families take loans and fall into debt. A lot of food is wasted, and the money spent could have been used for the couple's future. To solve this problem, weddings should be kept simple. Families should spend only what they can afford and use the saved money for the new couple's home and education. In conclusion, a simple wedding brings more happiness than a lavish one.

Question: Writing Exercise 4 (2): Write a cause and effect essay (four to five paragraphs) on: High cost of medical services.

Answer: Model answer: Medical treatment has become very expensive in our country. Poor people often cannot afford to see a doctor or buy medicines. The high cost of medical services has many causes. First, medicines and medical equipment are expensive. Secondly, there are too few public hospitals, so people must go to costly private hospitals. Thirdly, some doctors charge high fees. The effects are serious. Poor patients delay treatment, and their illnesses become worse. Some families borrow money or sell their belongings to pay hospital bills. To solve this problem, the government should build more hospitals and provide free or cheap

treatment. The prices of medicines should be controlled. In conclusion, cheap and good medical care is the right of every citizen.

Question: Writing Exercise 4 (3): Write a cause and effect essay (four to five paragraphs) on: Migration of people from rural to urban areas.

Answer: Model answer: Every year, many people leave their villages and move to cities. This migration from rural to urban areas is increasing. The causes are clear. Villages lack jobs, good schools, hospitals and other facilities. In cities, people hope to find work, better education and better health care. As a result, cities are becoming overcrowded. Houses, transport, water and electricity fall short, and pollution increases. At the same time, villages lose their young and able workers, and farming suffers. To solve this problem, villages must be developed. The government should provide jobs, schools, hospitals, clean water and electricity in rural areas. If village life becomes comfortable, fewer people will migrate. In conclusion, balanced development of villages and cities will make migration a choice, not a need.

Question: Study Skills Exercise 1: In pairs, suggest possible solutions to the given problems (bullying in schools, incomplete homework, talkativeness in class). Add two more problems and their solutions.

Answer: Model answer: 1. Bullying in schools — Why it exists: some students want power or have problems at home; rules are not strict. Possible solution: strict school rules against bullying; teachers watch and counsel bullies and victims; students report bullying to teachers. 2. Incomplete homework — Why it exists: students do not understand the work, waste time, or have too much work. Possible solution: teachers explain clearly and give reasonable homework; students make a timetable; parents check homework. 3. Talkativeness in class — Why it

exists: students are bored or want attention; lessons are not interesting. Possible solution: make lessons interesting and interactive; give talkative students class duties; set class rules. 4. Littering in school (added) — Why it exists: no dustbins nearby; students do not care. Possible solution: place dustbins everywhere; run a clean-school campaign; make students responsible for their classrooms. 5. Late coming to school (added) — Why it exists: students sleep late; no transport. Possible solution: go to bed early; parents ensure timely transport; the school keeps a record of latecomers.

Question: Exercise 6: Combine the points from Exercise 5 and write a summary of the story. Also, write an alternative ending of the story.

Answer: Model answer — Summary: Mr. Aziz's family planned a holiday, and Mr. Karim's family decided to join them. They planned a 10-day trip and travelled by train to Patni station. They hired a van to reach the house they had rented. The porter and the driver were surprised to hear the address, and the driver told them the house was haunted, but Mr. Aziz did not believe such stories. Everybody liked the big and airy house. The children got the biggest room. They enjoyed the clean air and fresh vegetables, and they felt happy and relaxed. After a few days, strange things started happening to Mr. Karim: someone pulled his blanket and bed, and a head blocked his way on a walk. Finally, an empty chair moved by itself before all four adults. In the end, Mr. Karim woke up screaming and found that the whole trip had been a dream. Alternative ending: The

family stayed on in the house and found natural explanations for everything: a stray cat had pulled the blanket, the "head" was the shadow of a hanging lantern, and the chair had been moved by a loose floorboard. They laughed at their fears and enjoyed the rest of their holiday happily.

Question: Exercise 7: In groups of five, think of a good dream and develop a short role-play.

Answer: Model answer (A Dream of Flying): Dreamer: Last night I dreamt that I could fly! I flew over my village, over the fields and the river. Mother: What a lovely dream! Were you not afraid? Dreamer: No, I felt free and happy. Friend: Did you meet anyone in the sky? Dreamer: Yes, I met a beautiful bird, and we flew together. Teacher: Dreams teach us to aim high. Bird: Fly high, but remember to come back home! All: We must work hard to make our dreams come true.

Question: Oral Communication Exercise 1: Prepare a presentation on "The Impact of Fake News on People's Lives", following the presentation guidelines in Unit 4.2.

Answer: Model answer: Good morning, everyone. My name is Ahmed, your class fellow. Today, I would like to talk about the impact of fake news on people's lives. I will probably take about five minutes. I have divided my topic into three parts. First, what is fake news: false news shared to mislead people. Secondly, its impact: it spreads fear, creates quarrels, harms innocent people, and makes people believe wrong things. For example, a false message about a school closure can waste everyone's time. Lastly, what we can do: check news before sharing, trust only reliable sources, and never forward unverified messages. In conclusion, we must stop fake news by thinking before we share. Thank you for your time.

Question: Oral Communication Exercise 2: Evaluate the presentations of your colleagues using the given rubric (excellent / good / fair / satisfactory / poor).

Answer: Model answer: Tick one column for each item according to the performance: Clear introduction of topic; Ideas clearly presented; Thoughts and ideas well organised; Sufficient supporting details; Effective communication style; Appropriate body language; Eye contact with the audience; Interaction with the audience; Proper conclusion. Example of a completed evaluation of a good presentation: Clear introduction — excellent; Ideas clearly presented — good; Thoughts and ideas well organised — good; Sufficient supporting details — good; Effective communication style — good; Appropriate body language — fair; Eye contact — good; Interaction — fair; Proper conclusion — excellent.

Question: Exercise 5 (Verse 1): List two things for the verse: what people should do and the result of doing each thing.

Answer: a) Speak gently — it is better to rule by love than by fear. b) Let no harsh words spoil the good we may do.

Question: Exercise 5 (Verse 2): List two things for the verse: what people should do and the result of doing each thing.

Answer: a) Speak gently to the little child — win its love. b) Teach it in soft and mild accents — it may not remain a child for long.

Question: Exercise 5 (Verse 3): List two things for the verse: what people should do and the result of doing each thing.

Answer: a) Speak gently to the aged one — do not grieve the care-worn heart. b) Let such depart in peace — their sands of life are nearly run.

Question: Exercise 5 (Verse 4): List two things for the verse: what people should do and the result of doing each thing.

Answer: a) Speak gently — it is a little thing dropped in the heart's deep well. b) The good and joy it may bring — eternity shall tell.

Question: Exercise 6: Based on answers in Exercises 3, 4 and 5, write the

summary of the poem.

Answer: Model answer: The poem "Speak Gently" teaches us to speak gently to everyone. It is better to rule by love than by fear, and harsh words spoil the good we may do. We should speak gently to little children and teach them in a soft manner, because it wins their love and childhood passes quickly. We should speak gently to old people and not grieve their care-worn hearts, because their sands of life are nearly run and they should depart in peace. Speaking gently is a small but important thing, and the good and joy it brings will be known in eternity.

Question: Exercise 7: List small things that one can say or do to make people happy, and small things that one may say or do that can hurt people.

Answer: Things related to happiness: 1. Smile at others. 2. Say "thank you". 3. Help a friend. 4. Praise others. 5. Share things. 6. Listen politely. 7. Apologise for a mistake. Things related to hurt: 1. Frown at others. 2. Speak harshly. 3. Laugh at a friend's mistake. 4. Insult others. 5. Take others' things. 6. Interrupt others. 7. Blame others for your mistake.

Question: Exercise 8: Select any three things from each section (happiness and hurting), and discuss what you can do to provide happiness and to avoid things that hurt people. Then speak in front of the class stating one thing you will do to give happiness and one thing you will do to avoid hurting people.

Answer: Model answer: I will give happiness by smiling at others, saying "thank you", and helping my friends. I will avoid hurting people by never speaking harshly, never insulting anyone, and never laughing at a friend's mistake. From today, I will help my classmates in their studies to give them happiness, and I will never interrupt others while they are speaking,

so that I do not hurt them.

Question: Oral Communication Exercise 1: Describe something that you own which is very important to you, following the public-speaking steps. Answer the Wh-questions: Where did you get it from? How long have you had it? Who gave it to you? When did you purchase it? Why did you purchase it? Why is it important to you?

Answer: Model answer: Good morning, everyone. Today I will tell you about something I own which is very important to me: my watch. I got it from my grandfather. He gave it to me on my tenth birthday, so I have had it for two years. I did not purchase it; it was a gift. It is important to me because it was my grandfather's own watch, and it reminds me of him and teaches me the value of time.

Question: Oral Communication Exercise 2: Prepare a three-minute speech on the importance of a clean environment, following the public-speaking rules.

Answer: Model answer: Good morning, everyone. Today I will speak about the importance of a clean environment. A clean environment means clean air, clean water, and clean surroundings. First, a clean environment keeps us healthy: dirty surroundings spread diseases like malaria and dengue. Second, it keeps our minds fresh and happy: we feel good in clean places. Third, it protects animals, birds and plants. So, we must not throw litter on roads and in streets. We must plant trees and keep our school and homes clean. In conclusion, a clean environment is a healthy environment. Let us all play our part in keeping it clean. Thank you.

Question: Language Practice Exercise 8: Rewrite the passage (Nadeem and his boss) in the form of reported speech.

Answer: Nadeem went to his boss and asked if he would get a promotion that year. His boss replied that he would. Nadeem asked when he would get it. His boss said that he would, but on one condition. Nadeem asked what that was. The boss asked if he could answer some questions. Nadeem asked if he answered correctly whether he would get the promotion. The boss confirmed it and asked whether he should ask him three easy questions or one difficult question. Nadeem asked if the boss could give him some time to think. The boss gave him two minutes to

decide. Nadeem asked if the difficult question was very difficult. The boss replied that it would depend on what he thought was difficult. Nadeem asked what would happen if he could not answer. Then he further asked if he would get another chance. The boss replied in the negative. Nadeem thought for a minute and agreed to be asked one difficult question. The boss asked if he was sure. Nadeem asked if he had a choice. The boss said that he could try the three easy questions. Nadeem said that he would like to answer the difficult question. So, the boss asked what had come first, day or night. Nadeem thought for a minute and replied that day had come first. The boss asked how he knew. Nadeem asked if he had not answered one question as per their agreement. The boss was pleased with his quick thinking and gave him immediate promotion.

Question: Writing Exercise 1: Read the sample essay "The Hazards of Movie Going". Underline the three ideas in the introductory paragraph that show what will be covered; the topic sentence in each body paragraph; the controlling ideas and supporting details; the signalling phrase in the concluding paragraph. Compare the introductory and concluding paragraphs.

Answer: Three ideas in the last sentence of the introductory paragraph (thesis statement): problems in getting to and inside the theatre; the theatre seating; the behaviour of some movie-goers. Topic sentences: First body paragraph — "One reason why people prefer watching movies on the TV rather than going to the theatre is the time required in reaching and getting inside the theatre." Second body paragraph — "Even if one manages to get a ticket, there is the problem of getting a good, comfortable seat." Third body paragraph — "Furthermore, there are numerous other problems one has to face because of the way that many movie goers behave." Controlling ideas: reaching and getting inside the

theatre; seating; behaviour of movie-goers. Supporting details: the long drive of almost an hour or more; long queues; the theatre becoming full before one's turn; narrow and hard seats; springs sticking out from torn seat covers; tilting seats; a tall person blocking the view; noisy environment; loud comments, whistling and discussions; little kids racing up and down the aisles. Signalling phrase in the concluding paragraph: "In short". Comparison: the introductory and concluding paragraphs are similar because both mention the same three problems and the idea that watching movies at home is better; they are different because the introduction presents the ideas, while the conclusion sums them up and gives the final judgment that watching movies on TV is a better option.

Question: Writing Exercise 2 (1): Write an expository essay of at least four paragraphs on: Acquiring a New Skill.

Answer: Model answer — Acquiring a New Skill. Learning a new skill is a useful and rewarding activity. A skill is an ability that a person learns by practice, such as driving, cooking, speaking a language, or using a computer. Acquiring a new skill needs interest, practice, and patience. The first step in acquiring a new skill is to set a clear goal. A learner should decide what skill to learn and why it is needed. For example, a student may learn computer skills to do school work better. Then, the learner should find a good teacher or learning material and make a regular plan for practice. The second step is regular practice. A skill cannot be learnt in one day. A learner must practise daily, even for a short time. Mistakes are a natural part of learning, and a learner should not give up because of them. For example, a person learning to drive makes mistakes at first, but regular practice makes him a good driver. The third step is to use the skill in real life. A skill becomes strong only when it is used again and again. A person who learns English should speak and write it daily. A person who

learns cooking should cook for the family. Using the skill builds confidence and shows where improvement is needed. In short, acquiring a new skill needs a clear goal, regular practice, and real use. Anyone who follows these steps with patience can learn a new skill and make life better.

Question: Writing Exercise 2 (2): Write an expository essay of at least four paragraphs on: Importance of Sports.

Answer: Model answer — Importance of Sports. Sports are an important part of life. They include games like cricket, football, hockey, and badminton. Sports are important for health, character, and education. The first importance of sports is good health. Sports keep the body fit and strong. They make the heart and muscles work well. Students who play sports regularly fall sick less often. Sports also refresh the mind after study. The second importance of sports is character building. Sports teach discipline, teamwork, and fair play. A player learns to follow rules, to work with others, and to accept both victory and defeat. These qualities help a person in every part of life. The third importance of sports is that they bring people together. Sports build friendship between players and between nations. Matches and tournaments give people joy and national pride. In short, sports are important for health, character, and unity. Every student should take part in sports along with studies.

Question: Writing Exercise 2 (1): Write a persuasive essay on: Girls should be educated.

Answer: Model answer — Girls Should Be Educated. Every girl has the right

to education, yet many girls are still kept out of school. Girls should be educated because education builds a better family, a better society, and a better country. First, an educated girl becomes a better mother and a better manager of her home. She can look after the health of her children, help them in their studies, and run her home wisely. An educated mother gives her children a good start in life. Second, an educated girl can earn and support her family. She can become a teacher, a doctor, a nurse, or a businesswoman. When girls work, families become stronger and poverty decreases. Some people say that girls do not need education because they will only look after the home. This is wrong: even to look after a home well, a girl needs knowledge. An educated girl manages her home better and also guides her children. In short, girls must be educated. A nation that educates its girls educates its future. Let us send every girl to school.

Question: Writing Exercise 2 (2): Write a persuasive essay on: Sports and games should be made compulsory for all students.

Answer: Model answer — Sports and Games Should Be Made Compulsory for All Students. Many students spend all their time on books and screens, and their health suffers. Sports and games should be made compulsory for all students because they build health, character, and a happy mind. First, sports keep students healthy and fit. Games make the heart, muscles, and bones strong. A healthy student falls sick less often and studies better. Second, sports build character. They teach discipline, teamwork, fair play, and how to accept victory and defeat. These qualities help students in every part of life. Some people say that sports waste study time. This is wrong: students who play sports are fresh and active, and they learn better. Games refresh the mind and remove stress. In short, sports and games must be a part of school life for every student. A healthy body makes a healthy mind. Let us make sports compulsory in every school.

Question: Writing Exercise 2 (3): Write a persuasive essay on: Students should be encouraged to speak in English in the School.

Answer: Model answer — Students Should Be Encouraged to Speak in English in the School. English is the language of higher education, jobs, and the world. Students should be encouraged to speak in English in the school because practice makes them confident and fluent. First, speaking English daily improves fluency. A student who speaks English every day learns new words and correct sentences without fear. Practice in school removes the fear of speaking wrong. Second, English helps students in their future. Interviews, jobs, and higher studies need English. A student who speaks English well can face the world with confidence. Some people say that speaking English in school harms our own language. This is wrong: learning English does not mean leaving our own language. We can love our own language and still learn English. In short, students must be encouraged to speak English in school. Practice today will bring success tomorrow. Let us speak English in school every day.

Question: Writing Exercise 2 (4): Write a persuasive essay on: Students should be guided and supported to grow some vegetables at home.

Answer: Model answer — Students Should Be Guided and Supported to Grow Some Vegetables at Home. Many students do not know where food comes from, and many families buy costly vegetables. Students should be guided and supported to grow some vegetables at home because it teaches them useful skills and gives fresh food. First, growing vegetables teaches responsibility and patience. A student waters the plants daily, watches them grow, and learns how nature works. This practical learning stays in the mind for life. Second, home-grown vegetables are fresh, healthy, and cheap. A family can eat fresh vegetables from its own garden and save money. Some people say that students have no time for

gardening. This is wrong: a small vegetable patch needs only a few minutes a day, and it refreshes the mind after study. In short, students must be guided to grow vegetables at home. It is a healthy habit and a useful skill. Let us start a small vegetable garden at home today.

Question: Writing Exercise 2 (5): Write a persuasive essay on: Knowledge about diseases and vaccinations should be made a part of the Curriculum.

Answer: Model answer — Knowledge About Diseases and Vaccinations Should Be Made a Part of the Curriculum. Many people suffer and die from diseases that can be prevented. Knowledge about diseases and vaccinations should be made a part of the curriculum because it saves lives and builds a healthy nation. First, students who learn about diseases can protect themselves and their families. They learn how diseases spread, how to keep clean, and when to see a doctor. This knowledge prevents many illnesses. Second, learning about vaccinations removes fear and false ideas. Students learn that vaccines are safe and save lives. They can guide their families to get vaccinated on time. Some people say that the curriculum is already full. This is wrong: a few lessons on health can save many lives, and health is more important than any other subject. In short, knowledge about diseases and vaccinations must be a part of the curriculum. A healthy student makes a healthy nation. Let us add health education to our curriculum.

Answer: (d) mostly be safe.

Question: Exercise 4 (10): Every time you get into your car you make a ___. a) choice b) decision c) promise d) mistake.

Answer: (a) choice.

Question: Exercise 5 (a): What two important safety measures can save people's lives?

Answer: Wearing helmets while riding a motorbike, and fastening seat belts while travelling in a car.

Question: Exercise 5 (b): Why is a helmet an important safety gear?

Answer: Because it absorbs the impact of a crash or fall, minimises head injuries — the most common cause of death and disability in motorbike accidents — and protects the eyes from wind, sun rays, dust and cold.

Question: Exercise 5 (c): How can not wearing a helmet change the life of bike riders and their families forever?

Answer: Death or serious injury of a rider changes his life and his family's lives forever. A traumatic brain injury can result in permanent disability, and non-helmeted motorcyclists are three times more likely to sustain head injuries in a crash.

Question: Exercise 5 (d): What happens when a car stops suddenly?

Answer: The car stops, but the body keeps travelling at the speed of the car. Without a seat belt, the body can go through the windshield and suffer serious injury or death.

Question: Exercise 5 (e): How is the click of a seat belt button an insurance?

Answer: The click of a seat belt is an insurance that safeguards your safety and survival: it stops your body from flying forward, prevents serious injury or death, and saves you from medical expenses and fines.

Question: Exercise 6 (1): Complete: Wearing a helmet can provide ___.

Answer: (i) multiple benefits to the rider.

Question: Exercise 6 (2): Complete: Wind, sun rays, and dust particles can ___.

Answer: (j) from unnecessary expenses.

Question: Exercise 6 (7): Complete: Not wearing a seat belt can lead to ___.

Answer: (g) high medical expenses due to injuries.

Question: Exercise 6 (8): Complete: Medical expenses can be long term or short term ___.

Answer: (c) depending on how serious the injuries are.

Question: Exercise 6 (9): Complete: Injuries resulting from not wearing seat belts ___.

Answer: (e) can also affect one's earning capability.

Question: Exercise 6 (10): Complete: Breaking the law by not wearing the seat belt ___.

Answer: (b) you can end up paying a fine.

Question: Exercise 7 (1): HELMETS — Reasons why people should wear helmets.

Answer: Helmets minimise the risks of head injuries, the most common cause of death and disability in a crash. Helmets absorb the impact of a crash or fall. Helmets protect the eyes from wind, sun rays, dust and cold. Wearing a helmet saves riders from fines and ensures maximum safety.

Question: Exercise 7 (2): HELMETS — Reasons why people don't wear helmets.

Answer: Their hairstyle gets messed up. Helmets make them feel uncomfortable. They cannot put up with the heat. Helmets cause too much sweating, and this irritates them. Some have no specific reason except that they are sure they will not get injured.

Question: Exercise 7 (3): SEAT BELTS — Reasons why people should wear seat belts.

Answer: A seat belt stops the body from flying through the windshield when the car stops suddenly. It saves people from serious injury or death.

It saves them from high medical expenses and fines. It saves the family from suffering.

Question: Exercise 7 (4): SEAT BELTS — Reasons why people don't wear seat belts.

Answer: They think seat belts cramp their style. They think seat belts are uncomfortable. They think seat belts are not necessary. They want ease and comfort instead of safety.

Question: Exercise 8 (1): Role play — Panel discussion related to helmets.

Answer: Model answer: Moderator: Why should we wear helmets? Panellist 1: Helmets save us from head injuries, the most common cause of death in motorbike accidents. Panellist 2: Helmets absorb the impact of a crash. Panellist 3: Helmets protect our eyes from wind, dust and cold. Panellist 4: Wearing a helmet also saves us from fines. Moderator: Thank you. We agree that everyone should wear a helmet.

Question: Exercise 8 (2): Role play — Panel discussion related to seat belts.

Answer: Model answer: Moderator: Why should we wear seat belts? Panellist 1: A seat belt stops our body from flying through the windshield. Panellist 2: It saves us from serious injury or death. Panellist 3: It saves us from medical expenses and fines. Panellist 4: Wearing a seat belt is like choosing life over death. Moderator: Thank you. We agree that everyone should fasten the seat belt.

Question: Exercise 8 (3): Role play — Reporter asking people questions related to helmets.

Answer: Model answer: Reporter: Do you wear a helmet while riding a motorbike? Person 1: Yes, I always wear a helmet because it saves my life.

Person 2: No, I do not wear one because it makes me feel uncomfortable. Person 3: Yes, I wear one because the police fine those who do not. Person 4: I wear one because it protects my eyes from dust and cold. Reporter: Thank you. Most people agree that helmets save lives.

Question: Exercise 8 (4): Role play — Reporter asking people questions related to seat belts.

Answer: Model answer: Reporter: Do you fasten your seat belt while travelling in a car? Person 1: Yes, I always fasten it because it saves my life. Person 2: No, I do not fasten it because it is uncomfortable. Person 3: Yes, I fasten it because it stops my body from flying forward. Person 4: Yes, I fasten it because it saves me from fines. Reporter: Thank you. Most people agree that seat belts save lives.

Question: Oral Communication Exercise (1): Prepare a debate on: We have a better life than our ancestors.

Answer: Model answer — In favour: We have a better life than our ancestors because we have electricity, clean water, fast transport, modern medicine, mobile phones and the internet. Our ancestors worked hard without these facilities and suffered from diseases that are now cured. Against: Our ancestors had a better life because they lived in clean air, ate pure food, and lived a simple, peaceful life. They had strong family bonds and no stress of modern life. Rebuttal (in favour): Although modern life has stress, modern facilities save lives and time. Our ancestors died young from diseases that we can now cure. So our life is better.

Question: Oral Communication Exercise (2): Prepare a debate on: Village life is better than city life.

Answer: Model answer — In favour: Village life is better than city life

because villages have clean air, fresh food, peace and quiet, and friendly neighbours. People in villages live a simple and healthy life. Against: City life is better because cities have good schools, hospitals, jobs, electricity, and all facilities. Villages lack hospitals, good schools and jobs. Rebuttal (in favour): Although cities have facilities, they also have pollution, noise, crime and stress. Villages give health, peace and happiness, which are more important than facilities. So village life is better.

Question: Oral Communication Exercise (3): Prepare a debate on: Mobile phones are a source of problems.

Answer: Model answer — In favour: Mobile phones are a source of problems because students waste time on games and social media, and their studies suffer. Mobile phones harm the eyes and health, and spread false news. Against: Mobile phones are not a source of problems; they are a source of knowledge. They help us learn, communicate, and work from anywhere. Rebuttal (in favour): Although mobile phones have benefits, their misuse causes problems. Students who use mobile phones too much fail in studies. So mobile phones, when misused, are a source of problems.

Anjum told them just to leave everything and start putting the chairs in order. Anila asked Shehla to blow up the balloons and put them on the string. The teacher ordered them to get out of the classroom before the guests came. Farah asked them to pick up all the extra things before going out. The teacher told them to wait outside until all the guests were seated.

Question: Writing Exercise 1 (1): Write an argumentative essay on: Wearing uniforms should not be compulsory in schools.

Answer: Model answer — Wearing Uniforms Should Not Be Compulsory in Schools. School uniforms are a common sight, but should they be forced on every student? Wearing uniforms should not be compulsory in schools because it limits freedom, burdens poor families, and does not improve learning. First, uniforms limit students' freedom of choice. Students are individuals, and their dress is a part of their personality. Forcing all students to wear the same dress kills their individuality. Second, uniforms are a burden on poor families. Uniforms are costly, and children grow fast, so parents must buy new uniforms again and again. This is a heavy expense for poor families. Some people argue that uniforms bring equality and discipline. It may be argued that uniforms remove differences between rich and poor. However, true equality comes from respect and good behaviour, not from the same dress. Uniforms do not make students disciplined or better learners. In short, uniforms should not be compulsory. Schools should allow students to wear clean, decent clothes of their own

choice. This will save money and respect students' freedom.

Question: Writing Exercise 1 (2): Write an argumentative essay on: All the students should be promoted to the next class without exams.

Answer: Model answer — All the Students Should Be Promoted to the Next Class Without Exams. Exams cause fear and stress in students. All students should be promoted to the next class without exams because exams do not measure true ability, and they harm students' health and confidence. First, exams do not measure true ability. A student may know the subject well but fail in the exam due to fear or illness. Exams test memory, not understanding. Second, exams harm students' health and confidence. Many students suffer from stress, sleepless nights, and fear of failure. A failed student loses confidence and may leave studies. Some people argue that exams are necessary to check learning. It may be claimed that without exams students will not study. However, teachers can check learning through class work, projects, and assignments. Learning can be judged without the fear of exams. In short, all students should be promoted without exams. If students are not promoted, they will fail; if they are promoted, they will keep learning with confidence. Promotion without exams will make learning joyful.

Question: Writing Exercise 1 (3): Write an argumentative essay on: Teachers should punish students who do not do their work properly.

Answer: Model answer — Teachers Should Punish Students Who Do Not Do Their Work Properly. Some students do not do their work properly. Teachers should punish students who do not do their work properly because punishment teaches discipline, and it protects the rights of serious students. First, punishment teaches discipline. When a student is punished for not doing his work, he learns that work must be done on time.

Discipline is necessary for success in life. Second, punishment protects serious students. If lazy students are not punished, serious students also become careless. Punishment keeps the whole class serious about studies. Some people argue that punishment harms students. It may be claimed that punishment makes students hate studies. However, fair and light punishment does not harm; it guides. Punishment should be fair, not cruel. In short, teachers should punish students who do not do their work properly. Fair punishment builds discipline and respect for work. If teachers do not punish, students will become careless and fail in life.

Question: Writing Exercise 1 (4): Write an argumentative essay on: Students should not be allowed to bring mobile phones to school.

Answer: Model answer — Students Should Not Be Allowed to Bring Mobile Phones to School. Mobile phones are useful, but they are harmful in school. Students should not be allowed to bring mobile phones to school because they disturb studies, and they cause discipline problems. First, mobile phones disturb studies. Students play games, watch videos, and chat during classes. Their attention moves away from lessons, and their marks fall. Second, mobile phones cause discipline problems. Students use phones to cheat in exams, watch wrong things, and disturb others. Phones also cause fights over expensive models. Some people argue that mobile phones are needed for safety. It may be claimed that parents need to contact their children. However, parents can contact the school office in an emergency. Safety does not need a mobile phone in every pocket. In short, students should not be allowed to bring mobile phones to school. If phones are banned, students will study better and the school will be peaceful. Let us keep mobile phones out of school.

Question: Writing Exercise 1 (5): Write an argumentative essay on:

Gardening should be made a compulsory subject in all schools.

Answer: Model answer — Gardening Should Be Made a Compulsory Subject in All Schools. Students learn many subjects, but they do not learn how food grows. Gardening should be made a compulsory subject in all schools because it teaches useful skills, and it improves health and the environment. First, gardening teaches useful skills. Students learn how to grow vegetables, fruits, and flowers. They learn patience, responsibility, and the value of hard work. These skills help them all their lives. Second, gardening improves health and the environment. Gardening gives exercise and fresh air. Plants clean the air and make the school beautiful. Students who grow vegetables eat fresh and healthy food. Some people argue that gardening wastes study time. It may be claimed that schools should teach only books. However, gardening is also learning: it teaches science, nature, and life. A few hours of gardening do not harm studies; they refresh the mind. In short, gardening should be made a compulsory subject in all schools. If students learn gardening, they will love nature and live a healthy life. Let us make gardening a part of school life.

Question: Writing Exercise 2: Write an argumentative essay individually on any one of the above topics, but not the one on which you have already written.

Answer: Model answer (a second essay, on "Gardening should be made a compulsory subject in all schools", with different arguments): Gardening Should Be Made a Compulsory Subject in All Schools. Our schools teach us to read books, but they do not teach us to grow food. Gardening should be made a compulsory subject in all schools because it connects students with nature, and it saves money. First, gardening connects students with nature. Students who work in a garden see how seeds become plants. They learn about soil, water, sun, and seasons. This practical knowledge

stays with them for life. Second, gardening saves money. A school garden gives fresh vegetables for the school, and students can grow vegetables at home too. This saves money and gives healthy food. Some people argue that schools have no land for gardens. It may be claimed that gardening is not possible in city schools. However, gardening can be done in pots, boxes, and small plots. Even a small garden teaches a lot. In short, gardening must be a compulsory subject. If we do not teach gardening, students will forget the value of nature and food. Let us start gardening in every school.

Question: Study Skills Exercise 3 (2): Put the statements related to "What to do after stopping studies upon reaching the peak" in their proper order.

Answer: 1. After studying up to the maximum point, you must not sit idle and worry but do something different. 2. Don't sit around and rest after finishing studying, because the mind does not work like the body. 3. For the mind, rest comes from doing something different. The mind gets its relaxation from variety. 4. For renewing physical energy, the body needs to

rest. 5. The mind keeps working even when you are asleep it works. Something that was evading you will suddenly become clear when you wake up. 6. 'Let's sleep over it' is a famous saying, because the mind will work and find the answer while your body is resting.

Question: Study Skills Exercise 3 (3): Put the statements related to "How to do revision in an effective manner" in their proper order.

Answer: 1. Revision is about ensuring that what you have learnt is accessible. 2. Revision is about tidying up loose ends, putting the stuff you know in order. 3. Only go over stuff you know and organise it in your mind. 4. While revising, don't learn new material. It will only lie in the way and interfere with the material you know well.

Question: Study Skills Exercise 4: Discuss which option you liked the most and why. Share your choice and the reason with the class.

Answer: Model answer: I liked the option "For the mind, rest comes from doing something different. The mind gets its relaxation from variety" the most, because it teaches me that after studying I should not sit idle; I should play, walk, or do something different. This refreshes my mind and helps me learn better.

Question: Fun (Poem): Read and act out the poem "The Blind Men and the Elephant" by J. G. Saxe in groups of four.

Answer: Model answer: In the poem, six blind men of Indostan go to observe an elephant. Each man touches a different part and describes the whole elephant from that one part: the first touches the side and calls the elephant a wall; the second touches the tusk and calls it a spear; the third touches the trunk and calls it a snake; the fourth touches the knee and calls it a tree; the fifth touches the ear and calls it a fan; the sixth touches

the tail and calls it a rope. Then they argue loudly, each sure his own view is right. The lesson: each man was partly right, but all were wrong, because they judged the whole from one part only. In the group activity, each student recites and acts out one or two verses, showing how each man touches and describes his part, and the group ends with the argument and the lesson.
