high/difficult.

Answer: Complete passage — We were very excited about the trip to the Northern Areas of Pakistan. We were going to climb a mountain for the first time in our lives. The nearer the day of our climbing came, the more excited we got. Soon the day came. We all got up very early; however, the more organized we tried to leave, the more unorganized we seemed to get. Our fingers seemed to have turned into toes. The van was waiting outside. The quicker we thought we were, the later it seemed we were. Finally, we all piled into the van. The nearer the van drew to the mountain, the brighter the look in everyone's eyes. The minute the van stopped, everyone jumped out. Our guide started to give us last minute instructions. The much he guided us, the less we seemed to understand. All we heard was 'let's go'. At first it was great fun. The cooler the mountain air got, the fresher we felt. But, as we started climbing, the higher we got, the more difficult it was for us to breathe. Although the scenery was beautiful, we were feeling too tired to look around. We were just climbing. The quicker we tried to climb, the slower we became. And the steeper we climbed, the quieter our speed became. In fact, the nearer the end of the journey, the farther it seemed. Suddenly, one of our group members shouted 'Hurrah! Pakistan Zindabad!' It was then that we all looked up. We had reached the top and the scene around us was breathtaking.
