Unit 1 - Great Caliphs of Islam

Pre-reading (book page 2)

What do you know about the great caliphs of Islam?

The first caliphate, the Rashidun Caliphate, was ruled by the four Rashidun (rightly-guided) caliphs: Hazrat Abu Bakr, Hazrat Umar, Hazrat Usman and Hazrat Ali. Caliphs were religious and political leaders of the Muslim world. They were close companions of Rasoolullah (peace be upon him). The Rashidun Caliphate lasted for 30 years and is a role model for all Muslim rulers.

How many Rashidun Caliphs are there in Islam?

Four: Hazrat Abu Bakr, Hazrat Umar, Hazrat Usman and Hazrat Ali.

While-reading: Who was the first man to accept Islam?

Hazrat Abu Bakr Siddique was the first among men to embrace Islam.

While-reading: What is the meaning of Al-Farooq?

Al-Farooq means the one who distinguishes between the right and the wrong. Rasoolullah gave Hazrat Umar this title because he became a distinguishing factor between Muslims and disbelievers.

While-reading: When did Hazrat Usman embrace Islam?

Hazrat Usman accepted Islam instantly when his friend Hazrat Abu Bakr invited him to Islam.

While-reading: Who was the first child to embrace Islam?

Hazrat Ali was the first among children to embrace Islam; he was at that time only ten years old.

Post-reading (book page 4)

Which two qualities of Hazrat Umar do you like the most? Why?

Model answer: I like his justice and his discipline the most. He ruled with justice, granted scholarships to the poor, and served Islam and the Muslims for ten and a half years. He is a role model for Muslim leaders who want to rule with justice.

Write a few sentences about the life of Hazrat Ali in your own words.

Model answer: Hazrat Ali was the son of Hazrat Abu Talib, the uncle of Hazrat Muhammad (peace be upon him). From his early childhood he lived with Rasoolullah and was brought up in his care. He was the first child to embrace Islam, at the age of ten. He wrote letters and treaties for Rasoolullah, and he was a very courageous man, known as Asadullah, the Lion of Allah. After the martyrdom of Hazrat Usman, he became the fourth caliph of Islam and performed his duties for almost five years.

[Note: the lesson text states the title and his good habits; the meaning of the title is the standard reason for it.]

Poem (book page 15, Christina Rossetti): Brown and furry, / Caterpillar in a hurry, / Take your walk / To the shady leaf, or stalk, / Or what not, / Which may be the chosen spot. / No toad spy you, / Hovering bird of prey pass by you; / Spin and die, / To live again a butterfly.

At last, a beautiful butterfly comes out of the cocoon because nature has changed it completely. (The main idea of a paragraph is called a topic sentence. Other sentences in a paragraph support the topic sentence. These are called supporting details.)

Unit 3 - The Journey of Chocolate

Getting Started (book page 23)

What do you do with the peels of fruits and vegetables? How can you educate your family to recycle things for better results?
Model answer: We can put fruit and vegetable peels in a hole and leave them for some time; organic components are formed which are added to the soil as organic fertilizer to help plants grow. We can teach our family to recycle waste things — for example, use peels for fertilizer and reuse paper, plastic and glass — instead of throwing them away.

Lesson text (book pages 23-24): We have all eaten chocolate but not many of us know where it comes from or how it is made. Historians say chocolate has been around for almost 2000 years. In ancient times, chocolate was a symbol of wealth as only the rich could afford it. Chocolate came from

Central and South America to Spain in the 1500s through Spanish explorers who brought it back with them. It became very popular and soon spread throughout Europe. Chocolate comes from cocoa trees in its raw form. It is very surprising that the flowers of a cocoa tree grow on the trunk of the tree, not on its branches. These flowers grow throughout the year. When the fruit is ripe, large reddish pods hang all over the tree. Each pod contains 20 to 40 beans. It takes the pod about six months to ripen. After that, the pods are collected into heaps and then split open to remove the beans. First of all, the beans are heated or placed in the hot sun to dry. Then they are sent to factories. Chocolate beans are cleaned before they are roasted in a big oven. Next the shells are removed. The nibs are roasted and mixed with sugar and made into a paste. Dried milk and some flavours are added to the mixture. This mixture is then poured into big trays. A granite roller is pushed in each tray for several days. The chocolate now becomes a fine liquid. Finally, this liquid is left to harden. This is how chocolate is made. Chocolate is no doubt a good source of vitamins and minerals, but eating too much chocolate is not a good habit. We must remember to always brush our teeth after eating chocolate.

While-reading: Who invented the chocolate?

No single inventor is named in the lesson. Chocolate came from Central and South America and was brought to Spain in the 1500s by Spanish explorers; it then spread throughout Europe. [Note: the lesson text names no inventor — the answer follows the lesson's own history.]

Post-reading (book page 24)

Why is eating too much chocolate not good for health?

Because eating too much chocolate is not a good habit: it is bad for health and for teeth, so we must always brush our teeth after eating chocolate.

What would you like to invent to make your life easier?

Model answer: I would like to invent a machine that cleans my room by itself, so that I get more time to study and play.

Unit 4 - The Pride of Pakistan

Getting Started (book page 35)

Aren't these people our national heroes? Do these people need to be encouraged and honoured? How can we show love for the country?

Model answers: Yes, the children keeping their neighbourhood clean and the people helping each other during the pandemic are our national heroes. Yes, they need to be encouraged and honoured. We can show love for the country by keeping our surroundings clean, helping others, obeying the law and working honestly for Pakistan.

Lesson text (book pages 35-37): Finally, the day came when we took the school bus to go for our historical trip to Pakistan Army Museum, Lahore. My close friend and classmate, Tashif, brought his diary along with him. It was his hobby to collect pictures and information about Pakistan Army as his uncle was an army officer. I, too, eagerly wanted to know more about those great heroes who sacrificed their lives for the country. Since that day both of us had been waiting impatiently to meet those eleven heroes from the armed forces who laid down their lives to guard the sacred land of Pakistan. We arrived at the museum at around 10 a.m. There were many big galleries, huge slabs and walls. These galleries and slabs had different names: Rebirth of a Nation, the Quaid and the Armed Forces, Shuhada Corner, Nishan-e-Haider Gallery, Life at Siachen, Kashmir Corner, etc. On getting inside the museum building, I first saw four captured Indian tanks. A brief history of the encounters in which these Indian tanks were captured was displayed near them. One of the galleries was named 'Rebirth of the Nation'. I was surprised to see life-size portraits of the Quaid-e-Azam addressing the constituent assembly of Pakistan on August 11, 1947. This gallery was telling a story of struggle for freedom through paintings, photographs and brief information. Finally I went to the 'Nishan-e-Haider

Gallery'. Here, I came to know about the Nishan-e-Haider and its value. Our teacher told us that this highest military award is awarded to those soldiers and officers of the armed forces who sacrifice their lives for their country in an extraordinary act of bravery. Nishan-e-Haider means 'Mark of the Lion'. The eleven holders: 1948 Captain Muhammad Sarwar; 1948 Naik Saif Ali Janjua; 1958 Major Tufail Muhammad; 1965 Major Raja Aziz Bhatti; 1971 Major Muhammad Akram; 1971 Major Shabbir Sharif; 1971 Sawar Muhammad Hussain; 1971 Pilot Officer Rashid Minhas; 1971 Lance Naik Muhammad Mahfuz; 1999 Captain Karnal Sher Khan; 1999 Havildar Lalak Jan. I explored the museum with my classmates for more than three hours. The army museum was worth visiting. I will surely visit it with my family sometime again.

Getting Started (book page 46)

A man is cutting a tree. Is it a right act? What will happen to the environment if trees are cut for wood and fuel? What other benefits can we get from trees?

Model answers: No, cutting a tree is not a right act. Trees give us oxygen, shade, shelter, fruits, wood and a clean, healthy environment. (The picture shows a tree begging: 'Please, don't kill me! I give you oxygen and shelter.')

Poem (book page 47) — Thank You, Lord, by Mary Fairchild: Lord, in the morning I start each day / By taking a moment to bow and pray. / I start with thanks, and then give praise / For all your kind and loving ways. / Today if sunshine turns to rain, / If a dark cloud brings some pain, / I won't doubt or hide in fear / For you, my God, are always near. / I will travel where you lead; / I will help my friends in need. / Where you send me, I will go; / With your help, I'll learn and grow. / Hold my family in your hands / As we follow your commands / And I will keep you close in sight / Until I crawl in bed tonight.

Model answers: Faraz is sad because he thinks he is not like others. No, he does not need to be disappointed — Allah (SWT) made him special because he is a Math genius. Everyone is special in his or her own way. (Picture: Sister Ayesha to Brother Faraz: 'What made you so sad?' Faraz: 'I am not like others.' Ayesha: 'Yes, you are. Allah (SWT) made you special because you are a Math genius.')

Lesson text (book pages 55-56): One evening, Rehan found his best friend, Sa'ad, sitting alone on a bench in a park. He seemed really upset. Rehan asked Sa'ad what made him so sad and gloomy. Sa'ad said, 'I am feeling guilty about my rude behaviour.' Rehan exclaimed, 'I don't understand. Can you please explain?' Sa'ad said, 'I have been rude to one of my classmates who limped while walking. I often made fun of him for that. My rudeness grew with time. Being the captain of the team, I was shocked to know that Faraz had been selected as a wicketkeeper. I completely ignored his good performance and was unkind to him because of his physical issue. He added, 'Faraz was so depressed by my rude behaviour that he left school. Now, I am feeling so ashamed at being rude to him. I will never be able to

forgive myself.' Rehan told him that it was not too late. He told Sa'ad to go to Faraz's house and say sorry for his wrong attitude. Sa'ad agreed soon and they both went to Faraz's house. Faraz was pleased to see them. Sa'ad apologised to him for his rudeness. Faraz was a good boy. He forgave and hugged him at once. They became good friends.

by being kind, honest, helpful and by never making fun of anyone. (Pictures show what true friends do for one another.)

Lesson text (book pages 103-104): Once there were a fox and a stork living in a jungle. The fox was very clever. He always teased others. One day, he decided to play a trick on the stork. He went to his home and invited him to a dinner. The stork went to his place for the meal. The fox prepared a tasty soup and served it in flat plates cunningly. The stork was unable to sip as his beak was so long. It was difficult for him to eat from the flat dish. The hungry stork got angry but he did not show his anger and quickly went home. The stork had understood the scheme of the fox. He decided to teach the fox a lesson. He invited him to dinner the next evening. The fox arrived happily at his place. The stork served the meal in a jar with a narrow neck. The stork easily ate all his food with his long beak, but the fox could not. He could not put her mouth into the jar. The stork said to the fox calmly, 'Do not ridicule or degrade anyone for any reason. Allah (SWT) has made us all equal.' The fox was ashamed. He said sorry to the stork. They became friends again.

Unit 12 - Time to Think!

Getting Started (book page 112)

Which classroom rule is the most important? Why? Does every class need to follow rules? Why? Do we need rules at other places? Why?

Model answers: The most important classroom rule is to listen, because we learn when we listen. Yes, every class needs to follow rules so that everyone can learn in peace. Yes, we need rules at other places too — at home, on the road and in the park — because rules keep us safe and make life fair for everyone. (Classroom Rules chart: Raise your hand. Listen. Be friendly. Help clean up.)

Lesson text (book pages 112-114): 'Good afternoon, Dad! I have something important to show you,' Ahsan said while taking off his school bag. 'Good afternoon, my son! I would love to see what you have,' his father replied. Ahsan took out a brochure from his bag and showed it to his father. 'Today, my teacher gave me this brochure on traffic rules. It has very interesting information about road safety,' he said. His father read the brochure and said, 'That's really nice. Everyone should follow traffic rules. These rules make us safe while travelling.' When travelling in cars: Fasten your seatbelt. Always sit quietly in the back seat. Always get out on the kerb side of the car. When walking to and from school: Avoid crossing between parked cars. Follow traffic signals. Obey traffic police. Cross only at zebra crossing. Always walk and never run. Look to your left and right before crossing the road. Watch for turning vehicles. When cycling to school: Wear a helmet. Use zebra crossing while crossing the road. Obey the traffic rules. 'Yes, you are right. But everyone doesn't follow the rules. There is always a traffic jam in front of my school,' said Ahsan. 'Strange! Is there no traffic police there?' his father asked. 'I don't think so. I have never seen anyone there,' explained Ahsan. 'That's not good. We should inform the traffic police about this issue. As a good citizen, it is our moral duty to help the police by informing them about traffic issues. Come, let's write a letter. I will help you to write it,' said his father. Here is the letter that Ahsan wrote to the head of traffic police. Letter: Ahsan, House No. 123, Sector A, Islamabad. (Writer's address.) Inspector General, Traffic Police Headquarters, Islamabad. (Receiver's address.) 22 February 2018. (Date.) Respected Sir, (Salutation.) I am writing this letter to inform you about the traffic jam issue in front of The

Little Primary School. Nobody follows the traffic rules because there is no traffic police on this road. I often get late for school due to this traffic jam. I also observe many people violating safety rules on the road. They risk their lives and create problems for others as well. I request you to solve this issue to help the citizens of this area. Yours sincerely, (Signature.)

Pre-reading: Tell the colours and the purposes of the traffic lights.

Red means stop. Yellow means get ready (wait). Green means go.

While-reading: Do you think cyclists should also follow traffic rules?

Yes, cyclists should also follow traffic rules — wear a helmet, use zebra crossing while crossing the road, and obey the traffic rules.

Post-reading (book page 114)

How do traffic rules help us?

Traffic rules make us safe while travelling. They prevent accidents and traffic jams.

Have you ever experienced a traffic jam? Did you try to find a solution? Share your experience in a few lines.

Poem (book page 123) by Julia A. Carney: Little drops of water, / Little grains of sand, / Make the mighty ocean / And the pleasant land. / So the little moments, / Humble though they may be, / Make the mighty ages / Of eternity. / So the little errors / Lead the soul away, / From the paths of virtue / Into sin to stray. / Little deeds of kindness, / Little words of love, / Make our earth an Eden, / Like the heaven above.
