Unit 3 — Earth Day (Poem) (pages 30 to 38)

Student's Learning Outcomes (page 30): After completing the unit, students will be able to: listen to others and respond appropriately; identify common and complex silent letters in words e.g., almond, muscle, receipt, asthma, etc.; use punctuation cues to aid reading (e.g., capitalization, apostrophe for possession and contraction, commas used in a series, quotation marks) and also read common word endings; articulate and use simple rhyming words in writing (e.g -nd, nk, nt, mp); identify and classify the grammatical gender of naming words from immediate environments (masculine/feminine); recognise the apostrophe of possession with naming words i.e. Imran's bag, Ali's hat; use the common spelling of short and long vowel sounds eg., cat, car, bed, bird, dot, door, cut, cute.

Pre-reading (page 31)

Q: Why we celebrate earth day every year?

A: Because the Earth is our home and we are part of it — as the poem says, 'I am the Earth and the Earth is me' — so we celebrate this day to remember our connection with the Earth and to care for it.

Poem (page 31) — Earth Day, by Jane Yolen

I am the Earth and the Earth is me. Each blade of grass, each honey tree, each bit of mud, and stick and stone is blood and muscle, skin and bone. And just as I need every bit of me to make my body fit, so Earth needs grass and stone and tree and things that grow here naturally. That's why we celebrate this day. That's why across the world we say: As long as life, as dear, as free, I am the Earth and the Earth is me.

Reading and Critical Thinking A (page 32) — Read the poem carefully and answer the following questions

Q: 1. How does the poet compare his body with Earth?

A: Each blade of grass, each honey tree, each bit of mud, and stick and stone is blood and muscle, skin and bone — just as the poet needs every bit of his body to make it fit, so Earth needs grass and stone and tree.

Q: 2. Why we celebrate Earth day according to the poet?

A: Because we are the Earth and the Earth is us — as long as life, as dear, as free, I am the Earth and the Earth is me.

Q: 3. What natural items are mentioned in the poem?

A: Grass, honey tree, mud, stick, stone, and things that grow naturally.

Q: 4. What is the theme of the poem?

A: We are part of the Earth and the Earth is part of us, so we must care for it.

Q: 5. Summarize the poem in your own words?

A: The poet says that he is the Earth and the Earth is him. Every blade of grass, tree, bit of mud, stick and stone is like his own blood, muscle, skin and bone. Just as he needs every part of his body, the Earth needs grass, stone, trees and everything that grows naturally. That is why people all

over the world celebrate Earth Day.

of a sentence. Example: Ali went to Quetta. 2. Apostrophe: For possession: shows that something belongs to someone. Example: Sara's book (the book belongs to Sara). For contractions: shows missing letters. Example: don't = do not, it's = it is. 3. Commas: Separate items in a list or series. Example: I bought apples, oranges, bananas and grapes. 4. Quotation Marks: Show someone's exact words. Example: 'I am happy,' said Ali.

Activity (page 36) — Read the following paragraph keeping in mind the punctuation marks

Vocabulary and Grammar — Alphabetical order or ABC order (page 45)

Alphabetical order means arranging words according to the sequence of letters in the alphabet. In English, the alphabet begins with 'A' and ends with 'Z.' When arranging words alphabetically, you start by comparing

the first letter of each word. Example: Ali, beautiful, children, everyone, forgiveness.

Activity (page 45) — Arrange the following words alphabetically according to the first letter

Given: once, time, boy, access, village, green, flatly, matter, kind, person.

Arranged: access, boy, flatly, green, kind, matter, once, person, time, village.

Subject pronouns (page 46)

Subject pronouns are used to replace nouns in sentences. Examples: Ali is my friend. He is playing football. Abida and Khalida are classmates. They are reading story books. I am going to the store. Fozia likes writing. She is writing a letter. My sister and I are living together. We are cooking food. Subject pronouns: I, We, You, They, He, She, It.

They invited them to the party. Did you see it? He is talking about you. Object pronouns in the book's box: me, us, you, them, his, her, it. (Note: 'his' in the book's box is

a mistake — 'his' is a possessive word, not an object pronoun; the correct object pronoun is 'him', as used in the activity example 'The letter was written by him'. Flagged, not silently corrected in the list.)

Activity (page 47) — Use the following objective pronouns in your own sentences (him, her, me, you, us, them)

Lesson text (pages 54-55) — Pollution

Pollution happens when harmful things, like smoke, trash, and chemicals, get into the air, water, or land. These harmful things can make the Earth dirty and cause problems for people, animals, and plants. Types of Pollution: 1. Air Pollution: Air Pollution happens when smoke and gases from cars, factories, and burning things go into the air. It can make the air dirty and hard to breathe. 2. Water Pollution: Water Pollution happens when dirty things like plastic, oil, or chemicals get into rivers, lakes, or oceans. This makes water unsafe for people and animals. 3. Land Pollution: Land Pollution happens when people throw trash or chemicals on the ground, making the land dirty and unsafe. 4. Noise Pollution: Noise Pollution happens when there is too much loud noise. It can hurt people's ears and make them feel upset. Problems caused by pollution: Health Problems: Pollution can make people sick. It can cause problems like coughing, breathing trouble, and even serious diseases. Harm to Animals: Animals can get hurt or even die if they eat trash or drink dirty water. Damage to the Earth: Pollution can harm plants and make the Earth dirty, which is bad for everyone. We can reduce pollution in many ways. First, we can use less plastic, reuse things like bottles and recycle paper and

cans to keep them out of the trash. We should also use less water by turning off the tap when it is not needed. Instead of driving cars, we can walk or ride a bike to keep the air clean. It is important to pick up trash and always use trash cans. Finally, we should plant trees, because trees help clean the air and give us oxygen. By doing these things, we can make our world cleaner and healthier. Pollution is bad for our health, animals, and the planet. But we can all help to reduce pollution by making small changes in our daily lives. If we all do our part, we can have a cleaner, safer world to live in.

A: Yes — stop at the stop sign, look both ways, use the pedestrian crossing, and let drivers stop for you.

Q: If we follow the traffic rules, what benefits can we get?

A: We stay safe from accidents, and everyone on the road stays safe.

Lesson text (pages 86-88) — Safety Measures on Road

Teacher: Good morning, class! Today, we're going to discuss an important topic, 'Traffic rules and signs for our safety'. Can anyone tell me why it's important to follow traffic rules? Student A: Because they save us from accidents and keep everyone safe on the roads. Teacher: Exactly! Now, who can tell me what some common traffic signs mean? Student B: The stop sign means you have to come to a complete stop, right? Teacher: That's correct! And what about the speed limit signs? Student C: They tell us how fast we are allowed to drive in a particular area. (Speed limit sign shown: 70.) Teacher: Excellent! Now, let's talk about pedestrian crossings. What should drivers do when they see

someone crossing the road? Student D: They should stop and let the pedestrian cross safely. Teacher: Right again! Now, let's discuss some common mistakes that people make while driving. Can anyone think of a few? Student E: Using mobile phone while driving is a big one. It's really dangerous! Teacher: Absolutely! Using your phone while driving can lead to accidents. Remember, it's important to always keep your eyes on the road. Student F: What about not wearing seat belts? Teacher: That's another important point. Seat belts save lives, so it's important to fasten your seat belts every time you are in a vehicle. Student G: I heard that we should also use hand signals when riding bicycles. Is that true? Teacher: Yes, it is! Hand signals let other drivers know what you are planning to do. (Hand signal shown: Left Turn.) Student H: Thank you, teacher! I feel like I have learned a lot about traffic rules. Teacher: You are welcome! Remember, following traffic rules and signs is not just important for your safety. It is also important for the safety of everyone else on the road. We should be responsible citizens and follow traffic rules.

Kamran: Dad, can I have 2000 rupees, please? Father: Sure, what do you need it for? Kamran: I need it for a school project. I have to buy some material. Father: What type of material? Kamran: I need colored paper, glue, crayons, and black markers. Father: Do you think 1000 rupees are enough? Kamran: I think so. Father: How about we go to the store together? I'll buy what you need, and you can see how much everything costs. It's a good way to learn about spending money. Kamran: Yeah, that is good. Thanks, Dad. I love you. Father: Love you too, son. Let's go. Kamran: Okay.

Poem (page 129) — Bed in Summer, by Robert Louis Stevenson

In winter I get up at night and dress by yellow candle-light. In summer, quite the other way, I have to go to bed by day. I have to go to bed and see the birds still hopping on the tree, or hear the grown-up people's feet still going past me in the street. And does it not seem hard to you, when all the sky is clear and blue, and I should like so much to play, to have to go to bed by day?

Q: 3. What does the poet see from the bed during the day?

A: The birds still hopping on the tree.

Judgement calls and book errors (kept flagged, not silently fixed): (1) Page 13: the book prints 'suflower' and 'betime' (for 'sunflower' and 'bedtime') and 'togather'/'wheter' (for 'together'/'whether') — corrected and flagged. (2) Page 29: the book prints 'exited' in sentence 3 — corrected to 'excited' in the punctuated answer. (3) Page 33, MCQ 4: 'connected' is a theme-based model answer, not a quoted line. (4) Page 47: the book's object-pronoun box lists 'his' — 'his' is a possessive word, not an object pronoun; the correct form is 'him' (as in the activity example 'The letter was written by him') — flagged, list not silently altered. (5) Page 65: the pictured title page differs from this book's own cover (pictured cover is red with a children's photograph; this book's cover is blue). (6) Unit 7 title: the contents table says 'Eating Healthy' but

the opener says 'Healthy Eating' — the opener title is used. (7) Page 79 dialogue: speaker labels are Zohaib and Zain, but the lines address 'Faryal' and 'Najma' — reproduced as printed, mismatch flagged. (8) Pages 88-89: the book writes 'Student 5' for the fifth student speaker (Student E, who highlights using a mobile phone while driving). (9) Page 115, MCQ B1: the story says the parents planned 'a trip to the jungle'; the closest printed option, 'have a picnic in the jungle', is ticked. (10) Page 124: the MCQ options are mislabelled (a), (b), (d), (d) — the third option is treated as (c). (11) Page 135: the scene caption prints 'Tow friends' for 'Two friends' — corrected. (12) Page 136: the second friend is spelled 'Laiba' in the scene caption but 'Laila' elsewhere — both spellings noted. (13) Unit 9 MCQs (pages 104-105) are interpretive (theme, 'God's treasures', 'passing miracle') — the answers given are the best-supported readings of the poem. (14) Contents-table page numbers drift: Revision 5-8 is actually pages 99-101 (not 102), Unit 9 starts page 102, Unit 10 starts page 112, Unit 11 starts page 121, Unit 12 starts page 128, Revision 9-12 is pages 138-139, and the Glossary is pages 140-148 — actual page footers were used throughout.
